### COUVENT DES JACOBINS WITH THE TELECOM PARIS WINE CLUB

The wine club of Telecom Paris, a prestigious engineering university in France, welcomed Couvent des Jacobins in Palaiseau near Paris, on December 2, 2019.

Denis POMARÈDE, the estate manager and the winemaker of Couvent des Jacobins, interacted for several hours with nearly two-dozen members of the University wine club. He presented the history of Saint-Émilion, the world famous wine making village, and the village's long tradition of winemaking. He also shared the history of Couvent des Jacobins, one of the most iconic places in the village, with its own, 650-year long history of winemaking.

Along with an introduction to Couvent des Jacobins, we tasted the following vintages of Couvent des Jacobins with the young *passionnés* of the club: vintage **2015** (powerful and complex), vintage **2012** (dense and silky), vintage **2006** (a very 'cabernet' vintage at Couvent with a high share of cabernet franc in the blend), and vintage **2001**, still very fresh and complex after nearly 20 years of ageing. A medley of vintages from the past two decades, to demonstrate the « *marque de fabrique* » of Couvent and the ageing potential of its wines.

The team at Couvent des Jacobins is always delighted to participate to those exchanges, and to contribute to our level to sharing the amazing winemaking tradition of Saint-Émilion winemakers. Thank you all for this nice moment!
