Introduction to Couvent At the heart of the medieval village

Niché au cœur du village de Saint-Émilion, Couvent des Jacobins est une affaire de famille depuis 1902. Jean Jean a acquis la propriété et c'est aujourd'hui son arrière-arrière-petit-fils, Xavier, qui perpétue la tradition du Grand Cru Classé avec une pointe d'innovation. C'est donc sans surprise qu'en poussant la porte de Couvent, vous vous aventurerez dans les couloirs du temps. Certifié en agriculture biologique depuis l'automne dernier, le respect de la nature est une valeur essentielle du domaine et de son équipe.

À la fois ludiques et originales, les expériences sont multiples et variées que vous soyez en vacances ou en séminaire professionnel. En couple, en famille ou entre amis, les visites vous immergeront au cœur de notre philosophie de production, à bord d'un tuk-tuk entre les vignes, les carrières et le cloître.

Nested in the heart of the village of Saint-Émilion, Couvent des Jacobins has been a family-owned estate since 1902. Jean Jean acquired the estate and his great great grandson Xavier is now continuing the tradition of the Grand Cru Classé with a hint of innovation. Thus, it is no surprise that once you enter the doors of Couvent, you head into a time-travel adventure. Couvent des Jacobins has been certified organic farming since fall 2020 ; respecting the environment is a core value for both the whole team.

The numerous experiences offered at Couvent are both original and playful whether you are visiting Saint-Émilion for work or during your vacation. The tours immerse couples, friends or families in the midst of the wine-making philosophy, and transport them on board of a tuk-tuk through the vines, the quarries and the cellars.

Introduction to Calicem At the heart of first growths

L'univers de CALICEM couvre environ 1 hectare de parcelles uniques. La parcelle de Mazerat tout d'abord, entourée de trois Premiers Grands Crus Classés de Saint-Émilion

sur l'amphithéâtre argilo-calcaire sud-ouest. C'est également là que CALICEM est vinifié

et élevé. À quelques encablures, la parcelle sur la croupe de molasses du Fronsadais du Rivalon attenante aux parcelles de Couvent des Jacobins, l'autre cru familial. Cette dernière fut plantée en 1961 de vieux clones de merlots et maintenue intacte depuis sa plantation. Ainsi façonné par ces terroirs uniques et l'âge avancé des céps, un nombre limité de flacons de CALICEM, chacun numéroté à la main, est créé dans les meilleures années depuis le millésime 2015.

Les merlots de CALICEM possèdent leur écrin : un chai de 'poupée' attenant à la parcelle de Mazerat

The world of CALICEM covers about one hectare of unique plots. First, the clay over limestone plot of 'Mazerat' on the Southwest slope and nested within three Saint-Émilion First Growths. This is where the chai of CALICEM seats. And a short walk south, the plot on the Rivalon outcrop, that takes its name from the old merlot vines planted there in 1961 and still part of the blend of CALICEM. Shaped by these unique terroirs and the advanced age of its vines, a limited number of CALICEM bottles, each numbered by hand, is produced since the inaugural vintage of 2015.

The merlots of CALICEM have their own home: a 'doll-house' chai located right next to the Mazerat plot
